

Job Posting

The Institute

We are hiring:

Environmental Educator/Watershed Science Coordinator

Immediate Supervisors: Directors of Education

Full Time Position. Open until filled.

Overview

The Institute is a non-profit organization serving the region with outdoor programming in environmental and cultural education, and a wide variety of family events. Activities are conducted at various parks and natural areas around the greater Waynesboro area.

The mission of The Institute is to guide the people of the Cumberland Valley region to become stewards of their natural and cultural worlds.

To achieve its mission, The Institute:

- provides environmental and cultural education to elementary and secondary school children,
- supports and conducts research about natural and cultural history,
- provides opportunities for adults to learn about the nature and culture of the region and the world,
- presents programs that inform and entertain the community.

JOB SUMMARY

The environmental educator/watershed science coordinator is responsible for delivering established programs of The Institute at the K–12 grade levels and developing creative new programs into the future. As watershed science coordinator, the educator will also work with The Institute’s WaterStriders students, college interns and local watershed organizations.

The educator must work in cooperation with co-teachers, administrators, volunteers, interns, and all other personnel of The Institute.

Availability: Position is full time (40 hrs./week), and may include occasional evenings and weekends.

Duties and Responsibilities

- I. Share our region’s rich heritage, stories, landscape and watershed resources to inspire and engage stewards of the natural and cultural world.
- II. Teaching Requirements
 - Develop and teach educational programs designed for K–12th grade students related to The Institute’s environmental and cultural education series. Faculty members assist in the development of educational objectives, course descriptions, activities and materials lists, acquisition and maintenance of appropriate instructional materials and props, pre- and post-class information.
 - Teaching of programs includes: site preparation, setting up materials/props, student instruction, taking down materials/props and returning to storage.
 - Leading watershed activities and/or nature programs for the general public.

The Institute

Environmental Educator/Watershed Science Coordinator

Duties and Responsibilities, *continued*

III. Volunteer/Student Teacher/Intern Supervision

- Supervise environmental science interns at the high school and/or college level.
- Assist in the development of a volunteer staff, including recruitment, training and evaluation.

IV. Administrative

- Manage The Institute's watershed education activities.
- Coordinate/manage Antietam Watershed Association's citizen stream monitoring program, which is headquartered at The Institute.
- Attend meetings of The Institute as requested.
- Assist in the development of The Institute's long-term educational goals.
- Participate in program evaluations.
- Provide budget estimates for program development (equipment, materials, props, staff time) as requested by the administrative team.
- Perform other activities within the scope of The Institute's educational programs as needed.

Knowledge, Skills and Abilities

- Knowledge and experience in watershed science and education (stream studies, water quality monitoring, macroinvertebrate studies, etc.)
- Knowledge of age-appropriate activities pertaining to environmental education for teaching K–12th grade students.
- Knowledge of innovative lesson planning.
- Knowledge and experience with local flora, fauna, and natural history for teaching in an outdoor environment.
- Knowledge of safety requirements pertaining to teaching in the outdoors.
- Ability to respond appropriately to an emergency or a crisis situation.
- Professionalism, excellent leadership, organizational and interpersonal skills.
- High energy and the ability to work well with others (staff, children, visiting teachers and parents) and to foster a team environment.
- Good judgment, tact, and courtesy in dealing with the public.
- Attention to detail, good problem solving skills and flexibility.
- Ability to work without direct supervision.
- Strong oral and written communication skills. Grant writing experience is a plus.
- Experience working with Microsoft Office, PowerPoint and Excel is a plus. Strong email communication skills (group emails, prompt replies).

The Institute

Environmental Educator/Watershed Science Coordinator

Professional Requirements for Environmental Educator/Watershed Coordinator:

- I. Bachelor's degree in education, recreation and parks, interpretation, aquatic resources or related field.
- II. Certification in science or environmental education K-12 preferred.
- III. Experience with nature-based programming and education in non-traditional settings (nature center, forest school, camps, parks, etc.). Two years preferred.
- IV. Demonstrated interest in conservation, environmental education and watershed science.
- V. Must have or be willing to obtain pediatric and adult CPR/AED/first aid certification and Wilderness First Aid Training.
- VI. Must have current FBI background check, Pennsylvania child abuse clearances.

Physical Requirements

Teaching outdoors requires a reasonable level of physical fitness. Educator must be able to:

- walk long distances and pull garden carts with props and supplies over a variety of surfaces and rough trails through the course of a full day.
- stand for extended periods of time, sit, kneel, stoop, crawl, twist, reach above head, climb stairs or ramps, and carry up to 25 lbs.
- be outside most of the day, during all weather conditions.

Ideal Candidate

The ideal candidate has a love and knowledge of nature and the outdoors with a focused interest in watershed science. The candidate has excellent teaching skills, nurturing students in a gentle and positive manner. Additionally, the candidate embraces the mission of The Institute, is a seasoned professional with leadership experience in environmental education, and functions very effectively as a member of a collaborative teaching team. Organization, reliability, flexibility, and a love of being in nature are key to the role.
